NEW NOTE

From Germany Admitting Attack Upon the Liner Sussex

HANDED TO AMBASSADOR GERARD

Submarine Commander Has Been Punished

WILL MAKE REPARATION

Paris Reports Diminishing Activity In the Verdun Region, and Repulse of German Attack. While Berlin Claims An Extension of the Teuton Positions—German Casualties

(Associated Press Telegram)
Washington, May 10.—Germany's new note acknowledging responsibility for destruction of the Sussex, promising reparation and announcing punishment of the submarine commander, was received late today at the state department from Ambassador Gerard.

A new note on the Sussex has been handed Ambassador Gerard by the foreign office. The note is now on the way to Washington.

According to a dispatch from Amsterdam today admission is made in Berlin following the investigation into the Sussex incident that it can no longer be denied that a German submarine torpedoed the Sussex on the supposition that the vessel attacked was a warship.

All except three members of the crew of the White Star liner Cymric torpedoed off the Irish coast, were British subjects, today's dispatches state, the exceptions being the Russian and two Belgians. The definite announcement comes from Americans on board. He also reports that no warning was given and that the wake of a torpedo was seen.

Berlin will demand indemnity from Germany for the sinking by a submarine of the Brazilian steamer Rio Branco, according to a Rio Janeiro dispatch.

Paris reports diminishing activity in the Verdun region following the desperate fighting of the past few days. On both banks of the Meuse the artillery fire has slackened, that east of the river being described as intermittent. A German attack on the French lines near Moulin-Sous-Touvent was completely checked.

Berlin reports the extension of the German positions on Hill 304 northwest of Verdun, recently captured from the French, and the driving back of French detachments southwest of the hill. A British destroyer was badly damaged by gun fire during a brief engagement off the Belgian coast on May 8 between British and German torpedo craft, a German admiralty statement announces.

A British estimate of German casualties since the beginning of the war places them at 2,322,079. The total killed or died from wounds is placed at 664,562. The figures are said to have been compiled from German official lists.

GERARD REPORTS RECEIVING NOTE: NOW ON ITS WAY.

(Associated Press Telegram)
Washington, May 10.—Secretary Lansing received a message from Ambassador Gerard today giving notice that a new note on the Sussex case had been handed him and was on the way to Washington. It has been indicated that the German government now admits the attacking the Sussex, gives notice that the submarine commander responsible has been punished and promises to make reparation.

KILLED BY SISTER.

(Associated Press Telegram)
Gallipoli, O., May 10.—The ten-year-old daughter of W. G. Lindenwood was instantly killed at Centerville, near here today when her younger sister accidentally discharged a shotgun, blowing the top of the girl's head off.

FATHER'S BLOOD GIVEN TO SAVE INFANT CHILD

(Associated Press Telegram)
Cleveland, May 10.—Ben Rougat was recovering today from a blood transfusion operation performed at a local hospital Monday when he gave his blood to save the life of his four days' old son, who was dying from an internal hemorrhage. The baby was on the way to recovery today and Rougat was shaking off the weakness caused by the loss of blood. A nurse telephoned Rougat on Monday that unless he got to the hospital and submitted to the transfusion operation within twenty minutes the baby would die. Rougat ran all the way to the hospital and went on the operating table immediately.

EDISON TO MARCH AT PARADE'S HEAD: NEXT SATURDAY.

(Associated Press Telegram)
New York, May 10.—Thomas A. Edison, the inventor and chairman of the Naval Consulting Board, expects to march at the head of twenty engineers, all of whom are members of that board, in the great parade, in which nearly 145,000 persons will take part here on Saturday. The consulting board is composed of 24 members and all of them may march in the parade.

MEETING WILL BE IMPORTANT ON THURSDAY

CHAMBER OF COMMERCE WILL HOLD SESSION TO GET ACQUAINTED.

Delegates Also Will Be Elected to the Membership Council—At High School Auditorium.

A big social meeting of the chamber of commerce is to be held Thursday evening, May 11, at 7:30 in the auditorium of the high school. Every endeavor is going to be made to make this a big occasion, and it is hoped that all of the members, and their friends will make their plans to be on hand.

While most of the meeting will be given to getting acquainted part of the time will be given to listening to the addresses of Mr. H. S. Warwick, of the Chamber of Commerce of Columbus, Ohio, and Attorney Ray Martin, of Newark. It is the plan, also, of the officers of the Chamber of Commerce to hold the election for delegates to the Membership Council. This subdivision of the Chamber of Commerce will be one of the things that is sure to make it a success, so it is important that it be organized properly.

The Membership Council will be composed of forty or fifty delegates from the same number of subdivisions of the membership. For instance, the shoe dealers will elect one delegate, the dry goods dealers elect one, the attorneys one, and so on until each line of trade, industry or profession having as many as five members will be entitled to a delegate. Further explanation of the council will be made at the meeting.

It is important that each member attend this meeting and help in the work of organizing this council and making this a greater city. Newark has made a wonderful record in organizing its Chamber of Commerce and it can likewise make such a record in city building if we will just keep up the pace that has been set.

All of the members are urged to bring their friends, who are interested in the forward movement of the city, will be cordially welcomed. Seats will be found in the balcony of the auditorium for the guests of the members.

CRUSHING

EFFECT OF ARTILLERY IS APPARENT TO GERMAN MILITARY CRITIC.

Who is Confident That French Can Not Ultimately Successfully Defend Verdun.

(Associated Press Telegram)
Berlin, May 10.—(By wire) to Sayville.—"The German attack on Verdun is based on the crushing effect of German heavy artillery," writes Major Morant, military critic of the Tageblatt. "The capture of the smaller fortress in the west at the beginning of the war by the use of heavy artillery was only a prelude to the artillery operations now in progress."

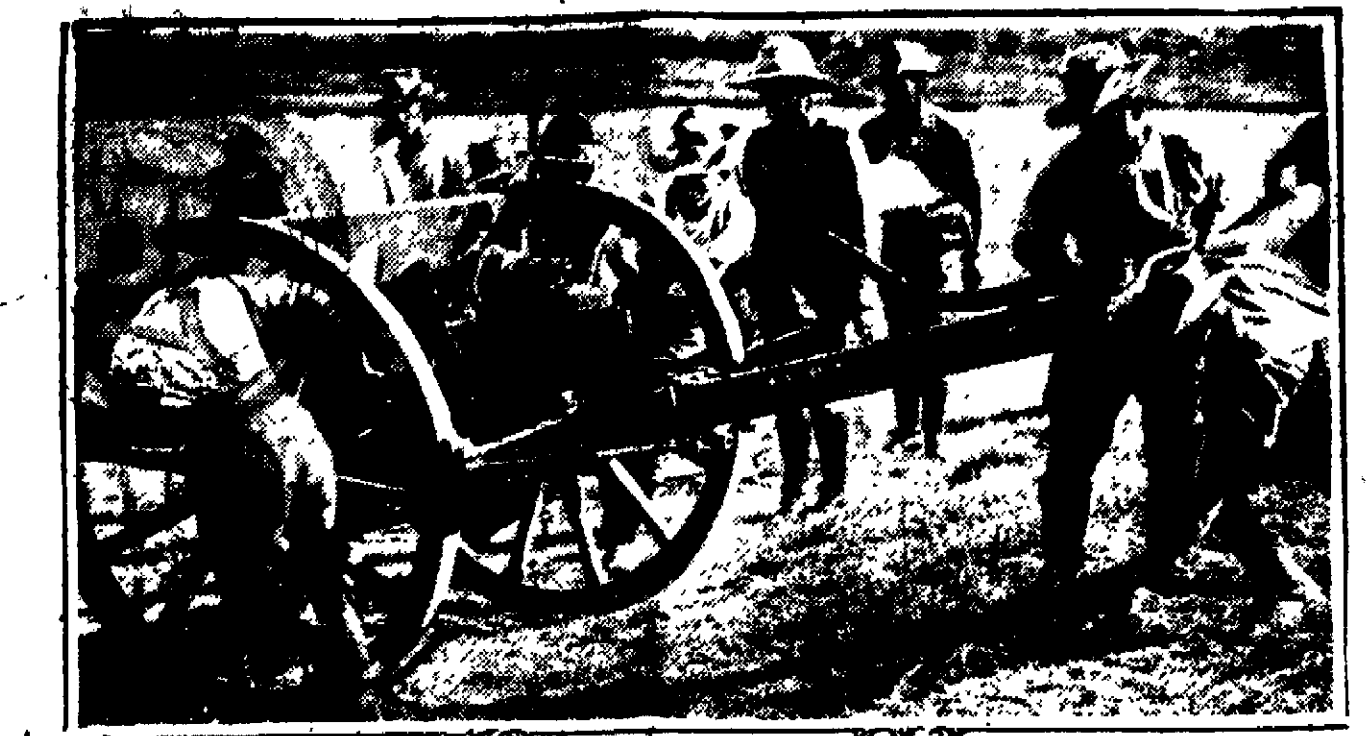

"The French have not been able to compete with German artillery and ammunition. The enormous losses of the French are due partly to the effect of the German artillery and partly to the tenacity of the French who will not abandon their trenches. Although it is generally considered that attacking forces must be four times superior to those of the defense, in the Verdun campaign, the number of German troops may be calculated at not less than 800,000. This figure represents half of the entire forces which France still has at her disposal for active fighting."

"All the German successes on the eastern and western fronts were gained with numerically inferior forces. Moreover, the Austro-Hungarian troops for a year have been holding back twice their number of the enemy. The principal elements in victory—quality of troops and courage—are steadily working to our advantage."

TORPEDOED SHIP WAS THE SUSSEX.

Amsterdam, Holland, May 10, Via London, 11 a. m.—A semi-official dispatch from Berlin says that as the result of the German government's investigation concerning the explosion which damaged the steamship Sussex it cannot longer be doubted that the vessel torpedoed by a German submarine on the supposition that it was a warship was in fact the Sussex.

AUSTRALIAN TROOPS EAGER FOR CHANCE TO SHOW THEIR PROWESS

Top, unlimbering and placing a gun in Liverpool camp at Sydney, Australia. Bottom, troops in training, building trenches for artillery.

Because of the poor opportunities given the Australians to show what they can do in battle, considerable disappointment has been manifested in England's island province. These pictures, which have just arrived from Sydney, show Australian troops training hard, in the hope that they may soon be sent to the western front.

STRIKERS

WILL HAVE TO APPLY FOR WORK THROUGH EMPLOYMENT OFFICES.

Grand Jury Will Investigate Braddock Riot—Situation at West-Inhouse Plant.

(Associated Press Telegram)
Pittsburgh, May 10.—Three thousand more men entered the plant of the Westinghouse Electric and Manufacturing company at East Pittsburgh today before the gates were shut. All of the strikers who now desire to return will have to make application through the employment offices. Strike leaders and pickets were not in sight around the works. The situation in other parts of the Turtle Creek valley was declared by factory managers to be improved, and more men returned to work at McKees Rocks where employees of the Pressed Steel Car company have been striking.

Judge A. B. Reid called the grand jury before him when court opened and instructed it to carefully investigate the Braddock riot. Anna Bell, Fred H. Merriek and J. H. Hall, strike leaders, who were arrested last week on coroner's warrants, and a dozen others said to have been implicated in the riot, are confined in the county jail, while eight wounded rioters are under guard in the Braddock hospital.

GOVERNOR ORDERS STATE MEDIATOR TO YOUNGSTOWN.

Columbus, May 10.—Fred C. Croxton, chief mediator of the Ohio industrial commission, and George F. Miles, deputy mediator, will go to Youngstown today to mediate the strike of machinists and electrical engineers. The entrance of the state officials into the Youngstown strike is by written request of Carroll Thornton, mayor of Youngstown, received by Croxton Wednesday morning.

More than 3,000 men, including employees of eight big concerns and several smaller ones, are concerned in the strike.

CLOTHING WORKERS' STRIKE TO SPREAD.

Chicago, May 10.—The clothing workers' strike which began yesterday with the walkout of about 600 employees, is expected materially today. According to Frank Rosenblum, secretary of the Amalgamated Clothing Workers Union, and acting executive head of the strikers in Chicago, more than 1,000 employees of the E. Kuppenheimer company will leave their work today.

PROGRESSIVES MEET.

New York, May 10.—Leaders of the Progressive party are here today to attend a meeting of the executive committee of the progressive national committee. The purpose of the meeting, as outlined by one of the members, is to discuss the entire political situation both as to candidates and policies and to issue a statement to the public. It is expected that this statement will indicate anew the opportunity of a reunion with the Republican party.

SMASH

OF ALL RECORDS FOR UNFILLED TONNAGE UNITED STATES STEEL CO.

Indicated by Monthly Statement for Third Time This Year—Working to Capacity.

(Associated Press Telegram)
New York, May 10.—For the third time this year the monthly statement of unfilled orders of the United States Steel Corporation, issued today, broke all records. The orders stood on April 30 at 9,829,551 tons, an increase of 498,550 tons over the previous high record of 8,568,966 tons on February 29.

The unfilled orders of the corporation have more than doubled in a year. On April 30, 1915, they were reported at 4,162,244 tons, since that time each month has shown an increase. The plants of the corporation have for some months been working at full capacity.

BRAZIL TO ASK INDEMNITY FOR SHIP'S SINKING

GOVERNMENT REPLYING TO THE NOTE THAT THE BRAZILIAN GOVERNMENT IN REGARD TO THE SINKING OF THE BRAZILIAN SHIP RIO BRANCO BY A GERMAN SUBMARINE, INFORMED BY THE CHARGÉ D'AFFAIRES IN FRANCE THAT THE GOVERNMENT WOULD UNDOUBTEDLY RECEIVE WILLINGLY ANY COMMUNICATION ON THE SUBJECT ADDRESSED TO IT BY BRAZIL.

(Associated Press Telegram)
Rio Janeiro, May 10.—The German minister, replying to the note and the Brazilian government in regard to the sinking of the Brazilian ship Rio Branco by a German submarine, informed by the chargé d'affaires in France that the government would undoubtedly receive willingly any communication on the subject addressed to it by Brazil. As soon as the official inquiry into the sinking of the ship is concluded, a demand for indemnity will be presented to Berlin.

The Rio Branco was sunk on May 2, and her crew landed at Blythe, England. The sinking of the ship caused great indignation in Brazil.

COACHES ROLLED DOWN EMBANKMENT TWENTY-FOUR HURT

(Associated Press Telegram)
Portsmouth, O., May 10.—Of the twenty-four persons injured last night when two passenger coaches a combination smoker, baggage and mail car all of train number 36, on the Norfolk & Western, running between Cincinnati and Portsmouth, left the rails, only one man, Frank Dudditt, was rendered unconscious. He will recover.

The coaches rolled down a thirty foot embankment when a truck on the engine tender jumped the track near Mineral Springs, O. A special train brought the injured to this city. Most of them were able to go to their homes.

ASK CONGRESS TO ENACT PROHIBITION LAW FOR HAWAIIAN ISLANDS.

Conference Holds Service Commemorating Centennial of Bishop Asbury's Death.

(Associated Press Telegram)
Saratoga Springs, N. Y., May 10.—After a brief business session of the general conference of the Methodist Episcopal church today the remainder of the time was devoted to a service in commemoration of the death of Bishop Francis Asbury, one of the pioneer leaders of the church. Bishop Asbury, speakers said, during his life, traveled annually approximately 6,000 miles, principally on horseback, and during each year preached from 300 to 600 sermons. Among the speakers at the service were Bishops Frederick D. Lee, of Atlanta, Ga., Frank M. Bristol, of Omaha, Neb., and Joseph F. Berry, of Philadelphia.

A resolution was unanimously adopted requesting congress to enact a law prohibiting the sale and manufacture of spirituous liquors in the Hawaiian Islands. The same proposal was referred to a committee yesterday after criticism had been expressed of phrase in the resolution which was characterized as reflecting on the morals of United States soldiers. The reference was eliminated in the resolution adopted today.

FALSE PRETENSES CHARGED AGAINST REAL ESTATE MEN

(Associated Press Telegram)
Lima, O., May 10.—Indictments charging that they obtained promissory notes under false pretenses, were returned yesterday afternoon by the Allen county grand jury against Elmer Roberts, local real estate dealer, and Charles F. Harsh, eastern man, said to have operated here in 1913. There are 19 counts in the indictments against the four men, charging that by misrepresentation they sold stock, principally to farmers, in the Western Ohio Fence company to the extent of \$13,000. One man who says he holds \$4,000 of this stock testified that he has never received a cent on his investment.

IOWA DEMOCRATS PRAISE WILSON

(Associated Press Telegram)
Clinton, Iowa, May 10.—Praise for President Wilson and his administration today formed the "key-note" speech delivered to the Democratic state convention by E. T. Meredith of Des Moines, endorsed recently as the party's gubernatorial candidate.

The speakers prepared the distinction between "preparedness for war" and "preparedness against war," and declared in favor of a non-partisan tariff commission, rural credits, and a merchant marine.

DAY IN CONGRESS

The congressional business for today is thus summarized:

Senate.
Met at noon.
Senator Kenyon of Iowa resumed attack on rivers and harbors appropriation bill.
Federal trade commission submitted report on distribution of Mexican sisal hemp among American binder twine manufacturers.
House.
Met at noon.
Consideration of Humphrey's flood control bill was resumed.
Naval committee continued framing of general supply bill.

NO AMERICAN WAS AMONG CYMRIC CREW

Bantry, Ireland, May 10.—Details of the sinking of the White Star liner Cymric were given today by members of the crew who were landed here. They say that the torpedo which destroyed the ship struck the engine room. The explosion blew all the skylights off and extinguished the lights throughout the vessel.

Four men were killed by the explosion and the chief steward was drowned trying to reach a boat when the crew abandoned the ship.

One hundred and seven members of the crew took to the boats shortly after the liner was torpedoed, but returned when it was seen that the steamer was not in immediate danger of sinking. They remained on board for two hours when a wireless call for help 100 miles away, arrived and took them off. The sloop stood by the stricken vessel until she sank at 3:30 in the morning.

All of the crew were British subjects except one Russian and two Belgians. There were also six passengers on board, members of the British consular service, all of whom were saved.

Officers say that the Cymric was unarmed.

LIQUOR DEALERS IN CONVENTION AT LOUISVILLE

Louisville, Ky., May 10.—One-third of the federal government's revenue in 1914 was derived from the liquor industries, declared Secretary Joseph Debar today in his annual report to the twenty-first annual convention of the Wholesale Liquor Dealers association of America, in session here. Of this amount said Mr. Debar, \$226,200,000 was received from internal revenue of liquor, and \$19,200,000 on import duties on liquor. The per capita consumption of liquor for a number of years, he declared, has remained stationary while the per capita amount of sobriety has increased a thousand fold.

The tenth annual convention of the National Association of Wine and Spirit Merchants, comprised of the traveling salesmen of liquor houses throughout the country, featured the morning session.

BRANDEIS

HEARINGS TO BE RE-OPENED BY JUDICIARY COMMITTEE OF SENATE.

Senator Sutherland, Republican, of Utah, Says There Has Been New Evidence Discovered.

(Associated Press Telegram)
Washington, May 10.—Re-opening of public hearings on the nomination of Louis D. Brandeis to the supreme court was ordered today by the senate judiciary committee for inquiry into Mr. Brandeis's connection with a proposed merger several years ago of the United Cigar Stores Co. and the Riker-Hegeman chain of drug stores. George W. Anderson, Boston, and George W. Anderson, United States attorney at Boston, have been summoned to appear in that connection Friday.

The motion to re-open the hearings was made by Senator Sutherland, Republican, of Utah, who said some information recently had come to him in connection with the proposed merger which never was consummated, and on which it is said Mr. Brandeis was consulted in an advisory capacity.

There was no general discussion of the new phase of the case and the whole committee adjourned without further action until next Monday. No time was fixed for a vote on the nomination.

TRAMPS MUST WORK IF THEY WANT TO EAT

(Associated Press Telegram)
Ashtabula, O., May 10.—The policy of "No work, no eat," is to be tried out in Ashtabula in an effort to get work out of tramps. City Manager J. W. Prince announced today. Twenty tramps have been in the city jail on a bread and water diet for three days because they are loath to do manual labor, especially cleaning city streets.

Prince says that if they continue in this attitude toward labor, the bread will be cut from their daily rations.

ATTACK

On General Pershing's Move Guard by Carranza Soldiers

RUMORED, BUT IS NOT TRUE

Aeroplane Scout Reports Are Quiet

CONFERENCE OF GENERALS

Expected to Be Continued, As Secretary Baker Informed. President That the One Last Night Was Inconclusive—Pershing Ordered to Concentrate His Troops.

(Associated Press Telegram)
Columbus, N. M., May 10.—Rumors that 3,500 Carranza soldiers were marching on Columbus and that General Pershing's rear guard had been attacked, were dispelled here today after a reconnaissance flight made by Captain T. F. Dodd of the aero corps. Captain Dodd flew over territory 75 miles to the south and west of Columbus. He reported seeing no Mexican soldiers and that all was quiet along the American line.

The rumors of an attack became current last night. Machine guns were mounted in some parts of the military camp and soldiers kept close to the barracks.

CONFIDENCE

Expressed in Final Agreement as to Status of American Troops.

(Associated Press Telegram)
El Paso, May 10.—Increasing confidence in the ability of General Scott and Obregon to effect an agreement as to the status of the American punitive expedition in Mexico was evident on both sides of the Rio Grande today, notwithstanding the situation was not materially altered by the conference in their 3-hour talk last night. The optimism appeared based largely upon the admission that another conference would be held, perhaps today and that General Obregon and his military advisers maintained attitudes of hopefulness.

The net result of the conference already held is that the Mexican representatives yet insist upon playing the question of the withdrawal of General Pershing's forces ahead of the question of co-operation. General Scott was expected to receive from the war department a communication on which a reply could be delivered to General Obregon's counter proposal for a joint patrol of the border by the troops of each country on its own side of the line. With this agreed to, General Obregon believed that co-operation in the running down of bandits that raid across the line might be more effective.

Whether the conference will take place before late today was unknown either at General Obregon's headquarters or at General Scott's. Because of the new phases suggested by General Obregon, it was believed probable that he would consult with Carranza and that delays in communicating with the Mexican capital might make the holding of the conference before tomorrow impossible.

The ordering into the border country of more regular troops and militia appeared not to worry General Obregon and those military men with him, nor did Juan N. Amador, sub-secretary of foreign affairs appear perturbed. They assumed that the increasing of the forces along the border to an army of almost 50,000 to be solely for the protection of towns on the American side and laughed at suggestions that anything more serious might be contemplated.

Major Lankhorne, commanding two troops of the Eighth cavalry, was nearing the international boundary line early today and it is understood that he is prepared to enter into Mexico if he sees any chance of running down one of the bandits implicated in the raid on Glana Springs and Bonilla. Colonel F. W. Mc...

"BAD MAN" KILLED

Mexican Smuggler Meets Death at
Hands of American Trooper.

(Associated Press Telegram)
Marathon, Texas, May 10.—Demetrio de La Garza, once known as the "Bad Man of the Big Bend country" met his death in a long range rifle duel with an American trooper on Monday in the hills near Boquillas. The cavalryman not only killed De La Garza but killed the Mexican's companion. De La Garza kept a small trading store on the American side of the Rio Grande, but ranchers have long known him as a smuggler. News of his death was brought here today by J. W. Gidson, a truck contractor. De La Garza resented the presence of the American soldiers as a border patrol and in Boquillas he is said to have given advance information to the Villa bandits before their raid. The informer with an assistant observed the American cavalryman on patrol duty near Boquillas on Monday and the two Mexicans opened fire. The cavalryman returned the fire and killed the two Mexicans.

Villa bands are reported to be concentrating in large numbers at El Pino, 87 miles south of Boquillas. The two bodies of bandits split their forces after the Glenn Springs raid with the understanding that they would join their comrades at El Pino. These bandits have been operating several months in the vicinity of Sierra Mojada, and recently began their movement to the north with designs on American border towns.

LAST TROOPS

In Regular Army Mobilized for Service on Border.

(Associated Press Telegram)
Washington, May 10.—Virtually the last American troops in the United States were being mobilized today for Mexican border service. With the national guard of three states, they were under orders to hasten to reinforce General Funston's army. The total of between 9000 and 10,000 included eleven companies of coast artillery ordered out last night by Secretary Baker.

The proposed military agreement between the Carranza and American government remained unsigned, and General Obregon, Mexican war minister, after a three-hour discussion with General Scott last night, arranged for still another conference today.

If the situation warrants, national guards of other states will be called out for border patrol duty, officials declared. Secretary Baker stated, however, that no further mobilization orders are contemplated immediately.

Unofficial reports were received that Mexicans along the entire border had planned for today a concerted uprising. From Mazatlan on the west coast of Mexico came word that the American consul there had been warned by anonymous letters that the consulate would be blown up. All Americans were urged to leave Mexico within 48 hours. These reports increased anxiety over the situation among officials here. In addition to the 4000 United States soldiers and an equal number of militiamen from Texas, New Mexico and Arizona, ordered to the border yesterday, Secretary Baker announced about 1000 soldiers comprising eleven companies of United States coast artillery stationed at Gulf and

Every Cold Should Be Considered Serious

So say the best medical authorities. Unless promptly checked, often they lead to chronic bronchial and pulmonary troubles which may prove fatal.
If your cough or cold has not responded to treatment—and remember, medicine should not be solely relied on—timely use of Eckman's Alterative may give you relief.
For more than twenty years it has been benefiting sufferers from these disorders. It is especially indicated where the system demands lime, for it contains calcium chloride so combined as to be easily assimilated by the average person.

Atlantic seaboard posts had been ordered to San Antonio to serve as infantry with the border patrol.

The secretary also said five batteries of the fifth field artillery had been ordered from Fort Sill, Okla. Three additional batteries of the third field artillery, were held in readiness at Tobyhanna, Pa., under orders today.

Official estimates placed the number of troops now on Mexican duty or under mobilization at about 45,000.

MORE ACTIVITY

In Every Department at Expeditionary Base Is Apparent.

(Associated Press Telegram)
Columbus, N. M., May 10.—Renewed activity in almost every department of the expeditionary base was apparent here today. Men are being sent forward to the field, preparation are being made for the mobilization here of the New Mexico national guard and supply motor truck trains, carrying ammunition, supplies and equipment are being sent to the front.

Last night a heavier guard than is customary was thrown about the military reservation, gasoline supply tanks and store depots being guarded closely. With no aeroplanes in the field, tests of new planes are being hurried by army aviators.

The first companies of the national guardsmen are expected to arrive in Columbus late in the week. Major W. R. Sample, base commander, detailed several regular army officers to muster the troops into the United States service immediately upon arrival. This was said, however, to be merely a precautionary measure in the event it should become necessary to send the men over the state line.

About 100 "casuals" or soldiers who have become detached from their commands, were ordered today to join their organizations. One hundred and fifty men of the sixth cavalry, who arrived recently to obtain remounts, were sent back to the field by motor truck, the animals being left here.

ALL INFANTRY

In Department of the East Ordered to Border.

(Associated Press Telegram)
New York, May 10.—The order of the war department sending additional troops to the Mexican border including the Third and Thirteenth infantry regiments virtually strips the department of the east of all its infantry. There remain only three squadrons of the second cavalry at Fort Ethan Allen and Fort Meyer, and a battalion of field artillery.

The departure of the third and thirteenth infantry regiments leaves hardly enough regular officers in the department of the east to act as instructors for the military training camps at Plattsburg this summer. It is believed at military headquarters here that officers from the coast artillery commands, stationed in eastern forts will be ordered to take the places as infantry officers as instructors at Plattsburg. This plan was adopted in the case of the training camps at Fort Oglethorpe.

CAMP SITES

For Militia and Regulars Laid Out By Army Officers.

(Associated Press Telegram)
San Antonio, Tex., May 10.—A board of army officers today began laying out camp sites for the militia and regular troops that will begin arriving here within the next few days, subject to the orders of Major General Funston. The total number of men mobilized here for service along the border and in Mexico will exceed 5,000 men.

The troops ordered to San Antonio include all the organized militia of Texas, 11 companies of coast artillery from Gulf and Atlantic seaboard points and the second battalion of the third field artillery from Tobyhanna, Pennsylvania.

In addition General Funston has ordered five batteries of the fifth field artillery at Fort Sill to move to the border.

COAST ARTILLERY

Stationed in Delaware Prepare to Move to Texas.

(Associated Press Telegram)
Wilmington, Del., May 10.—The entire force of the 12th company, coast artillery, stationed mostly at Fort Dupont, some at Forts Delaware and Mott, on the Delaware river, was busy today preparing to move to Texas, in response to orders from the war department. There are 105 men in this company. Before the day is ended, the company will be in readiness to move immediately upon receipt of final orders. They will work in the border service as infantry.

The married men of the company will be required to leave their families at Ft. Dupont until they return or are assigned permanently at some other place.

(Associated Press Telegram)
El Paso, May 10.—No answer had been received early today, from Washington to General Scott's message reporting General Obregon's proposal for a joint patrol of the international boundary.
General Scott said today's conference, scheduled for this morning, will be held regardless of whether a reply was received to the plan of the Mexican minister of war.

General Pershing has been ordered to begin a greater concentration of his troops. Those detachments still operating as far south as San Antonio, it was reported, will be withdrawn to Colonia Dublan.

STUDENTS' ENLIST

(Associated Press Telegram)
Austin, Texas, May 10.—Forty students of the University of Texas had enlisted for service in the Texas National Guard along the Mexican border at 8 o'clock today and the university authorities said many more were expected to enlist. Students going into Mexican service will be given credit for the work at

CONFERENCE WAS NOT CONCLUSIVE

(Associated Press Telegram)
Washington, May 10.—Secretary Baker informed President Wilson today that the conference between General Scott and General Obregon last night was not conclusive, and that it would be continued today. He indicated that the outlook was more favorable for an agreement being reached. The exact points of difference were not revealed.

AMMUNITION TAKEN

Laredo, Texas, May 10.—One million rounds of rifle ammunition, which Mexicans attempted to smuggle across the river into Mexico near here was confiscated by troops here today. It was believed the ammunition was intended for use of bandits in Mexico.

TODAY'S PARLEY

May Not Be the Last, Headquarters Officers Believe.

(Associated Press Telegram)
El Paso, May 10.—Gen. Funston said he had no idea when he would return to his headquarters at San Antonio. This was taken to indicate that today's conference may not be the last.

From Juarez came reports that General Obregon and his advisers were optimistic regarding the outcome of the conference. It is not expected that A. J. McQuatters, the mining man, who withdrew from last night's meeting will take further part in the discussions. General Scott explained that in view of the attitude of Gen. Obregon he had not thought it proper to insist on Mr. McQuatters' attendance.

General Funston said the coast guard ordered to the border would be assigned to towns which it could best protect. The militia will be divided among towns, bridges and easily accessible points with close communication, relieving the cavalry now doing patrol duty, for service in the isolated sections of the border. Two troops of the Twenty-first infantry left El Paso today to guard the big bridge near Del Rio on the Southern Pacific railway.

REDUCE MOTHERS' PENSIONS.

Toledo, May 10.—Pensions of 120 destitute mothers will be reduced in Lucas county. The pension fund during the last fiscal year was \$20,000. It is \$11,000 this year. The reductions will range from \$3 to \$15 a month for each beneficiary of the fund.

MORE DESTRUCTIVE THAN ANY WAR

Preventable Disease Kills Tens of Thousands Where War Kills One

At a recent meeting of a mothers' club the head of the health committee made some startling statements in comparing the death rate from causes due to preventable disease to the mortality in the great European war.

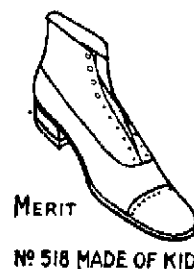

She showed that the great majority of human ailments are due either to unwise eating or to incomplete elimination of wastes, and urged that mothers should watch their children and see to it that they did not violate the laws of health.

She called special attention to the value of castor oil as nature's remedy for constipation. The healing properties of castor oil are universally recognized and it doesn't form a habit.

The distasteful features of castor oil have all been eliminated from CASTOR-JEL, which is 94 per cent castor oil with a delicious orange flavor added, and there is no trouble in getting either children or adults to take it. Bowser's Horse Knowledge
He Does a Friend a Favor
By M. QUAD

"H. by the way!" said Mr. Bowser as he shoved back from the breakfast table the other morning. "I may not be home at the usual hour this evening. I am going to look at a horse Watkins talks of buying and give him my opinion of the animal."

"A horse!" exclaimed Mrs. Bowser. "What do you know about a horse? You have never owned a horse in your life. I'd give it up if I were you. If the horse proves worthless it will make hard feelings between you and Mr. Watkins. Why don't he leave it to a livery stable man?"

"Because he has left it to me!" was half shouted in reply. "I am just as competent as any of the liverymen in America, and Watkins knows that I will be honest and truthful with him. I will show you, Mrs. Bowser, I will show you!"

It was true that one Mr. Watkins wanted to buy a horse. It was also true that he knew nothing about horses. He was looking around to ask somebody to act for him when he ran across Mr. Bowser and stated his case.

"You just leave it to me, friend Watkins," was the hearty response. "I will spare an hour at any time to pick you out a good horse. You can depend upon my judgment. When you have found a horse you like I will go up and look him over for you."

Mr. Watkins had found the horse and appointment was made with its owner, and at the hour named Mr. Bowser was taken to the stable. He felt the awful responsibility resting upon him, and he acted accordingly. He had the animal brought out of his stall for inspection, and the first thing he did was to look at his teeth. Mr. Bowser had never looked a horse in the mouth in all his life. He didn't know whether nature gave the horse fifteen teeth or fifty-five.

"How old do you call this horse?" he demanded of the owner.

"Why, I think you are a man who can tell that yourself," was the evasive reply.

"Oh, I can tell all right! He is just passed four years old, but I thought I would see if you were trying to deceive me."

"You have guessed his age to a month, and that is more than many horse-men could do. Go at it and make any examination you wish."

That horse was an old skate who had seen full eleven years. He had ring bones, wind broken, knock kneed and his back was weak. He had ring bones

WENT OUT OF THE BARN LIKE A CANNON BALL.

and spavins. He had cost his present owner \$10, and it had cost about \$10 more to dope him up to the point where somebody else would buy him.

"Well, what do you think of him?" asked Mr. Watkins as Mr. Bowser finally concluded his investigation and stepped back.

"You couldn't do better if you looked the United States all over. What did he say the price of the horse was?"

"He said \$300 and not a cent less."

"Well, he's worth \$100 more than that, and if I were you I'd close the bargain in less than a minute. I've got to go now, but you have the horse sent over to the barn and hitch him to your cutter and take a ride to see how it goes. If you will drive up my way I'll come out and take a ride with you."

When Mr. Bowser reached home he was full of boasting at the bargain he secured for his friend and was all ready to go out when Mr. Watkins arrived. Mr. Watkins was pale of face. The collar of his overcoat was badly torn. There was a bad dint in his hat. His voice trembled with emotion as he exclaimed:

"Come out here, come out here, you old hyena!"

Mr. Bowser went out. Almost in front of the house was a wreck. It consisted of an old skate of a horse and what had been a rather fine cutter. The horse lay on his side and was evidently a dead horse.

"Behold your work!" said Mr. Watkins as he pointed.

"How-how?" stammered Mr. Bowser.

"I broke him up," continued his friend, "and the first he did was to talk with me. It was half an hour before he would move, and then he went out of the barn like a cannon ball and ran away with me."

Mr. Bowser tried hard to reply, but he couldn't with that wreck before his eyes. He therefore did the next best thing. He walked into the house and left Mr. Watkins to hunt around and find a truckman who would remove the wreck and remain for the sum of \$15.

"Did you have a pleasant ride after the new horse?" asked Mrs. Bowser as he came down.

"It was rather cold," was the hesitating reply.

"When Mr. Watkins is satisfied with your judgment of a horse?"

"He didn't say. Some men are mighty ungrateful, you know."

And Mr. Bowser was not aware that Mrs. Bowser had peered through the window and seen the smash, and then from a crack in the front door had heard all that Mr. Watkins had said.

HAZARD

OF RAILWAY TRAVEL HAS DIMINISHED IN A MARKED DEGREE.

Not a Single Passenger Killed on 285 Roads in 1915—All Safety Records Broken.

(Associated Press Telegram)

Chicago, May 10.—All railway safety records were broken in 1915 when 285 American roads, reporting to the bureau of railway news and statistics here, went through the entire fiscal year to June 30 without a single fatality to a passenger in a train accident. The roads reporting reported 161,944 miles of line. It is stated that this record of safe operation has never been equaled by the railroads of any other country.

All American roads in 1915, operating over 250,000 miles of line, reported 196 passengers killed in all railway accidents. In comparison, the latest returns for Europe, with 197,615 miles, show 700 passengers thus killed.

The decreasing hazard to trainmen is shown by the fact that 288 were employed to one killed, the best record shown in that respect.

Cleveland Chamber of Commerce.

The Baltimore and Ohio railroad company this morning handled the seven car special train of the Merchants and Manufacturers section of the Cleveland Chamber of Commerce from Cambridge to Zanesville. The special is making a tour of Ohio cities.

The special will remain in Zanesville over night and will come to Newark Thursday morning, arriving here at 9:45 a. m. The Cleveland Chamber of Commerce party will be the guest of the Newark Chamber until 2:45 Thursday afternoon, when they are scheduled to leave via the B. & O. for Junction City. From Junction City the special will be handled on the remainder of its tour by the Pennsylvania lines.

B. & O. Agent Commended.

In a letter received Monday by Baltimore and Ohio Ticket Agent W. C. Wilson of the local office, B. N. Austin, general passenger agent of the system, highly commends Mr. Wilson for the excellent showing of ticket sales made by the Newark office during the month of April.

"You have been making a splendid record for some time past, one of the best of any of our large stations, which is most commendable," Mr. Austin stated in his letter.

To Run Derby Specials.

Both the Baltimore and Ohio Southwestern and the Louisville and Nashville railways will run special trains to Louisville for the Kentucky derby. The Baltimore and Ohio train will leave Cincinnati at 8:30 a. m. and the Louisville and Nashville at 8:45 a. m. Returning, the Baltimore and Ohio leaves Louisville at 8 p. m. and the Louisville and Nashville at 7:45 p. m.

Will Break Congestion.

For the first time since the adoption of its rule on the diversion of freight cars the American Railway Association, composed of practically all lines in the United States, has decided to enforce the penalty attached to the ruling. This is done in an effort to break up the box car congestion in the East so that the Western grain crop can be handled without delay.

All Eastern roads with headquarters in Cincinnati have been notified that box cars now held in the East must be returned to their owners in the West at once.

Gift From His Chief.

Charles Wiseman, district passenger agent of the Baltimore and Ohio and Cincinnati, Hamilton and Dayton lines at Cincinnati, yesterday received a large autographed photograph of George F. Randolph, first vice president of the Baltimore and Ohio system. Years ago Mr. Randolph and Mr. Wiseman were telegraph operators on the old Cincinnati, Sandusky and Cleveland railroad. Mr. Randolph at Kenton, Ohio, and Mr. Wiseman at London, Ohio. Mr. Randolph leaves shortly for Europe to investigate trade conditions there for his road.

Operators Not Satisfied.

The telegraph operators of the Cincinnati, Hamilton and Dayton railway, who made a number of demands on the receivers of that system, Governor Judson Harmon and Judge Rufus B. Smith, and were granted a five per cent wage increase, are not satisfied, and have asked another conference with the receivers. This will be granted the telegraphers' committee within two weeks.

DANCING DOLLS
ON EXHIBITION

Newark citizens are promised a rare treat for Thursday, Friday and Saturday of this week, when Edward A. Shannon, "Nankin", comes to this city to exhibit his wax mechanical dancing dolls—or are they human beings? The exhibit will be in the windows of the Stewart Bros. & Alward company in West Church street.

The wax dolls a male and female, will appear in the windows on the above named afternoons between the hours of 2 and 5.30 p. m. Saturday evening they will exhibit from 7 to 9 o'clock. The question of whether the dolls are mechanical or human beings, is left to the conjecture of the general public until the last night of the exhibit.

Mr. Shannon arrived in the city this morning and is arranging the window for the performance. What are they—wax-mechanical—or human beings? Mr. Shannon invites the mechanical geniuses of Newark to give the dolls their closest inspection.

KITTENS ADOPTED BY SETTING HEN

(Special to The Advocate)

Summit Station, May 10.—A setting hen at the home of B. F. Stover here has adopted a family of kittens a week old and has successfully resisted the efforts of the mother cat to regain possession of her offspring. A commotion in the chicken house resulted in an investigation which revealed that the hen was repulsing an attack by Tabby, who was seeking return her children to her own home.

Meat and Economy.

It is often remarked that the
workingman of today can't afford
real meat. He may enjoy soups and
stews, but the luscious old-time
roast beef bone is supposed to be out
of his reach.

A marketman was saying the other
day that this is not the fact, however.
Two women had just been in his
place, one in very easy circumstances,
and she bought a piece of "round"
at 22 cents a pound, no doubt get-
ting an appetizing stew. The other
was a woman of most limited means
and she called for a pound of
"rump," which was 35 cents. As the
dealer wouldn't cut off less than two
pounds, she paid her 70 cents and
marched off triumphantly with her
choice dinner.

In the days when the market bas-
ket was more popular, people studied
more carefully the virtues of differ-
ent sections of the "beef creature" as
the old-timers called it. One man
said he always tried to get a piece
off the round next the rump. He
could tell by the shape of the piece
when the meat cutter was not near
enough to the rump. He would go
out and come back later, and get a
choicer cut for the same money.

The saving made by cheaper cuts
is less than formerly. Too many
people are asking for them. The
United States cook book issued a
few years ago, giving suggestions for

using cheap cuts, was one of the
most popular of the government
publications.

Many people derided the idea of
the government interfering in the
kitchens. All the same, this little
book gave many people ideas about
dealing with the meat combine. In
a time when population is increasing
and cattle decreasing, not every one
can have rump steak. The selection
of meat for the family table is an
interesting study, and in these times
of high prices, is worthy of careful
personal attention.

Distributing Farm Products.

The problem of distributing farm
products seems so big and unwieldy
as to be nearly hopeless. Some new
scheme is reported every few weeks.
Yet the farmers continue shipping to
wholesalers in the same old way. Af-
ter the material pays three or four
profits and sets of expenses, some of
it comes back right to the neighbor-
hood where it started from.

The National Agriculture Society,
formed the past week in New York,
is the latest organized effort to meet
this situation. One of its principal
ends is to promote co-operation and
better marketing methods among the
farmers.

Students of rural economies have
long urged farmers to co-operate in
establishing supply depots and stor-
age warehouses, with refrigeration
where necessary. The theory has
been that then the local dealer would
buy the bulk of his supplies from
near home, saving no end of trans-
portation and expense. The theory
looks good. Yet it is slow in being
adopted. Perhaps one reason is that
the farmers, progressive as they may
be nowadays, do not appreciate the
necessity for publicity.

It will be of little use to assemble
a great stock of farm products in a
central warehouse, unless dealers and
consumers in that section are made
familiar day after day with the
stock and prices there offered. Un-
less they are told what they can get
there, the provision men would tend
to keep on buying in the same old
way, and of the same old people, and
paying too many profits and costs.

But if such co-operative ware-
houses would use the newspapers to
a reasonable extent, they ought to
be able to sell enough cheaper to get
the business or a lot of it. No great-
amount of space in any one news-
paper would be necessary. If it was
a regular feature, readers would
look for the announcement, and it
would not need large type or dis-
play.

"Mother's Day."

The second Sunday in May is
Mother's Day. This year it falls on
May 14th. The beautiful thought of
setting aside one day in the year to
be particularly devoted to one's
mother was first suggested by Miss
Anna Jarvis of Philadelphia, who
founded the Mother's Day Interna-
tional Association to provide the
necessary organized support for the
fostering of the movement. Thanks
largely to her efforts, Mother's Day
has become a recognized institution
as the day on which each of us
should pause to acknowledge our
debt of affection and gratitude to
"the best mother who ever lived,"
on which we should be with her if
we can, and, if we unfortunately can
not, should make a point of sending
her a message of affection and cheer.

In co-operation with the effort to
foster the observance of Mother's
Day one of the telegraph companies
has provided special telegraph blanks
appropriately decorated with an ar-
tistic design of carnations and bear-
ing the legend "Mother's Day" on

which all messages of those who wish
to send a word of greeting to their
mothers on this occasion will be de-
livered.

The emblem of the day is the
white carnation, and it is the hope of
the Mother's Day Association that it
will be worn by every one as a
tribute of respect, not only for his
own mother, but also for all the gen-
tle and noble motherhood of the
land.

Concerning Funeral Flowers.

(Ohio State Journal.)

Billy Sunday is holding meetings
at Baltimore, and from the accounts
in the papers he has captured the
city. In one of his last Sunday ser-
mons he told all about Job, the per-
fect man, and from it we copy this
paragraph:

There is not a wife alive today who
wouldn't rather have flowers scatter-
ed through her life than have them
piled up on her casket. Too much
money is spent for flowers to de-
corate funerals when it should have
been spent for a hired girl.

That sounds just like Billy, doesn't
it? One can almost imagine seeing
him saying it. Still, flowers at a fu-
neral are lovely to think about in
connection with the loved one in the
casket.

HINTS TO PROGRESSIVE FARMERS

Spraying Fruits.

Just as soon as the shucks fall
from the blossoms of the trees that
bear stone fruits, it is time to spray
for the curculio, says Professor
Wendell Paddock of the Ohio State
University. Arsenate of lead (2 1-2
pounds, paste to 50 gallons of water)
is the proper solution to use for that
insect. For the apple scab, lime-sul-
phur solution (4 pounds lime and
sulphur each to 50 gallons of wa-
ter) is recommended. It should be
applied just as the apple blossoms
show pink. Lime-sulphur will be the
best substitute for bordeaux mix-
ture which is prohibitive be-
cause of high prices for the control
of potato blight, says Professor
Paddock. Potatoes should be spray-
ed every 10 days for blight after
they get through the ground.

Average Life of Fence Posts.

The average life of fence posts of
the following kinds of wood is:
osage orange, 30 years; locust, 25
years; red cedar 20 years; catalpa,
15 years; bur oak, 15 years; chest-
nut, 14 years; walnut, 11 years;
hemlock, 9 years; elm 8 years;
willow, 6 years. The number of years
that a fence post will last should be
considered in the price paid for it.
Often for a few cents additional a
much longer lived post can be se-
cured making it cheaper in the end.
If the bark is left on a post it will
rot much faster than if it is removed.
Posts treated with hot asphalt
resist rot much longer than un-
treated posts. It is estimated that
the life of a cement post is 48 years
and that of a steel post, 30 years.

The Antidote.

A man went into a hotel in San
Francisco, secured a room with the
intention of committing suicide and
laid a vial of poison on the table
while making preparations for the
final act. When he stepped to the
table he discovered that accidental-
ly (?) he had put the vial upon a
Gideon Bible. As he opened it, his
eyes fell upon the reference (one of
the "prescriptions" on the Gideon
slip posted inside the front cover):
"If discouraged or in trouble, read
Psalm 126 and John 14." He read
these two selections threw the bot-
tle of poison out of the window,
knelt, and then and there gave his
heart to God, and is now an active
church member and a good citizen.
Numerous are the instances like
these, showing the invaluable ser-
vice of the hotel Bibles.—The Chris-
tian Herald.

Query.

At the May meeting of the Kansas
Editorial Association there will be
a series of papers by Kansas women
entitled, "If I had to do it all over
again, would I marry a Kansas edi-
tor?"

This opens up a new line of in-
quiry. It seems to be taken for
granted that any Kansas editor can
be married. A possible refusal is
not even considered. Is this evi-
dence of the general all-around supe-
riority of Kansas editors, or of the
great beauty and charm and general
irresistible qualities of Kansas wo-
men?—Judge.

About Swimming.

Nowhere is preparedness a greater
asset against serious accident than
in boating, canoeing and swimming.
The efforts made by the police, the
schools and others to teach the sim-
ple measures of common sense nec-
essary afford the best protection
against disaster. Yet there is an-
other element which should be im-
pressed upon the trained canoeists
and to expert swimmers. These
should be taught not to place too
great reliance in their skill. Usual-
ly it is the experienced swimmer
who drowns, and he drowns because
of carelessness and too great confi-
dence.—New York Press.

POOR SHOOTING.
Our esteemed contemporary shot at
us on the street again the other day,
but we should never have known it
had not a stranger in town kindly in-
formed us of the fact.
The poor old chap must have fired
500 bullets at us during the last five
years, and not one of them has even
cut a button off. We admire his per-
severance.

OBSTINATE.
OUR esteemed contemporary fired
three shots at us as we left the

The meeting of the White Carnation Sewing Circle has been postponed until further notice.

The regular monthly meeting of the Dorcas Bible class of the Central Church of Christ will be held at the home of Mrs. Charles Crothers, 104 Channell street, on Thursday afternoon at 1:30 o'clock.

On Monday afternoon Mr. and Mrs. Cyrus Nevins had as their guests the members of the two primary grades of the Hartzer school who were entertained with a violet hunt. After their successful search for the flowers, their enjoyment was added to by the serving of dainty refreshments. Several games were played before the happy children left for their homes.

Two parties of women bowled at the Pastime alleys on Tuesday evening. Miss Lottie Linden, made the highest score made by a woman so far, bowling 120. Those in the Wehrle party were: Misses Minnie Braddock, Winifred Grady, Jessie Braddock, Margaret Steopler, Larie Swartz, Louise Riechert, Mary Nimeth, Leah Gluter, Anna Bowman and Helen Gluter.

In the Carroll party were Misses Agnes Murphy, Nellie Prenter, Genevieve Kennedy, Lottie Linden, Blanch Nutter, Ina Guelio, Ida Linden, Anna Murphy, Thomasine Kelley and Kathryn Schaller.

Mrs. James R. Cooper entertained the members of the Tel Alca Cooking club on Tuesday evening at her home in Chalmers street. The menu provided the dinner and cards provided entertainment for the evening. The guests were Mrs. Fred Warner, Mrs. Wayne Anderson of Youngstown, Misses Katherine Redwick, Louise Elliott, Mary Mahom, Lorraine Moore, and Lenora Phillips.

Mr. and Mrs. E. C. Baird, Misses Rachael Jones, Edna Wegenheim, Anna Floyd and Earl Murphy, of the local telephone exchange were in Zanesville last night where they attended a reception and dance given by the exchange employees of Zanesville. Columbus, Lancaster, Cambridge, Coshocton, Dresden, Roseville and other exchanges were represented at the reception. More than two hundred couples were present during the evening.

Mrs. Mary Manville, pioneer resident of this city, today at her home, 21 South Fourth street, celebrated the 50th anniversary of her birth. Mrs. Manville was born in Knox county and came to Newark more than a half century ago.

Tonight at the McDaniel restaurant Miss Alta Field, of Field's orchestra, a niece of Mrs. Manville, will give a birthday dinner to members of the family and several friends, in honor of Mrs. Manville's birthday. Mr. McDaniel has prepared a four course dinner the feature of which will be a large birthday cake lighted with 50 candles.

Miss Selma Morrison was hostess to the members of the Opportunity club at her home in Fourth street last Thursday evening. After the business of the club had been transacted the evening was devoted to crocheting and music. Luncheon was served to the members and one guest, Miss Serena Groves.

The next meeting will be held at the home of Mrs. S. H. McNeely in North street.

A very delightful morning tea was given in the domestic science department by the Wednesday morning cooking class. Miss Grace Hohl acted as hostess and Miss Elizabeth East as assistant hostess. Tea and

sandwiches were served to the following guests: Misses Edna Griffith, Geneva Frye, Mildred Dickay, Helen Boring, Jessie Bowers, Helen Barcus, Lola Wintermute, Marian Whiteman, Helen Crawford, Charlotte Reidel, Goldie Butley, Catherine Comer, Sara McConnell, Essie Johnson, Ethyle Grimm, Elizabeth East, Edith Clark and the hostess, Miss Hohl.

The members of the Tuesday Afternoon Bridge club were entertained at the home of Mrs. D. F. Dowden on the club day by Mrs. Frank Merion. The rooms were arranged with lilacs and the club favors were awarded to Mrs. Ralph Wyeth and Mrs. Harry Scott while the guest trophy was received by Mrs. Anna Glover. The out of town guests were Mrs. Macracken of Lancaster and Mrs. A. J. Wilson and Miss Clara Clark of Utica.

Mrs. Walter Matz will entertain the members of her sewing club at her home in North Buena Vista street on Thursday afternoon.

WOMAN MOURNS SILK STOCKINGS EATEN BY A COW

(Special to The Advocate) Summit Station, O., May 10.—A diet of silk stockings for the family cow may not effect the health of the cow but it is disturbing to the peace of mind of the owner of the stockings according to a story in circulation here.

A matron of this garden spot of the world, hung a pair of real silk stockings of the latest champagne color, on the line in the back yard. The family cow was tethered nearby. Having the usual feminine fondness for finery the cow devoured the stockings. Knowing that cows usually deposit their food in a temporary stomach, for future reference the matron is said to have seriously considered calling upon the butcher to rescue the stockings which were of unusual color and texture, and consequently highly prized by the owner, who has two good reasons for wearing them.

CHILD BRIDE PARTED FROM HER HUSBAND

(Associated Press Telegram) Toledo, May 10.—Mrs. Ernie Scott were parted today by the juvenile court. Scott was sent home to his parents and his bride of a day placed in the custody of her sister, Mrs. Charles Pfeiffer. Scott is 18 and his bride who was Dolly Carter, is 14. They obtained a license and were married by a justice of peace in Monroe, Mich. It was on complaint of Mrs. Pfeiffer that the child elopers were taken into juvenile court here. Which Do You Prefer?

It is important for reasons of health and practical economy for every housekeeper to ask herself this question:

"Do I prefer a pure baking powder like Royal, made of cream of tartar derived from grapes, or am I willing to use a baking powder made of alum or phosphate, both derived from mineral sources?"

The names of the ingredients printed on the label show whether the kind you are now using or any brand, new or old, that may be offered is a genuine cream of tartar powder, or merely a phosphate or alum compound.

Royal Baking Powder contains no alum nor phosphate.

Granville

(Special to The Advocate)

Granville, May 10.—Council met last evening with all the members present, Messrs. Jones, White, Ashbrook, Deeds, Welsh, Russler, and Roe Morrow clerk, with Mayor C. D. Coons in the chair. Village Solicitor Charles Flory of Newark and Consulting Engineer T. S. Johnson were also among those present. The proposition of the Ohio Electric railroad for a new terminal, which was presented by their officials, Messrs. Moore, A. Benham, general manager, and J. R. Fitzgibbon, solicitor, was rejected, and in all probability the terminal will remain where it is at present located. Mr. O. C. Jones, owner of the site of the proposed new terminal, was also present at the meeting. The matter of the franchise to the Ohio Power and Light company to install an electric plant in the village, has been dropped until that company is ready to submit another proposition. There was some discussion as to the paving of the cross-town streets, and it is probable that three or four of them will be paved in compliance with the wishes of the property owners. The street committee failed to give permission to the Broadway paving contractors to run the steam shovel on the business block until each end of the street has been completed, as that would be working an injustice to the business men. Another meeting of the council will be held next Tuesday evening.

Mrs. D. D. Johnson and Miss Frances Johnson, who have been guests at the home of Prof. and Mrs. Theodore Johnson, left yesterday for their home in Parkersburg, West Virginia.

Dr. Frank Carney, head of the department in Denison University, was elected president of the new state organization, effected at a recent meeting of the teachers of geography in Ohio. At a lecture recently given at Ohio State University, Prof. R. H. Whitbeck of Wisconsin State University said that Ohio is conspicuous for a large number of geographers who have a wide reputation.

No doubt the reason for this fact is that Ohio is unusual in its vast amount of material for geology and geography study. Rare specimens of the works of nature, as well as of prehistoric man are to be found in different parts of the state.

Mrs. Theodore Johnson went to Mt. Vernon this morning where she will be the guest for two days of Miss Katherine Critchfield, a former Denison student. Mrs. Johnson expects to attend the Mt. Vernon May Festival and on Friday she will go to Andover for a brief visit with her parents, who are located there for the summer.

Mr. G. R. Richards, superintendent of the Baptist City Missionary work in Cleveland, a graduate of Denison University in 1871, is the guest of President and Mrs. C. W. Chamberlain at their home on College Hill.

Miss Sarah Seymour is spending the day in Columbus where she is lecturing at the Poster Exhibit at the University. Miss Seymour is interested in art, being not only a wielder of the brush but a worker in metals and gems, and of late a student in designing.

A delightful party is given this afternoon at the home of Mrs. Helen Hunt in Park Drive in compliment to Mrs. W. E. Boegs, who leaves Granville very soon for a two months' stay in Nova Scotia before embarking for India, where she will rejoin her husband in their field of missionary work.

The circle of the missionary organization to which Mrs. Hunt belongs, numbering about twenty-seven members, are the only guests on this occasion. Delicious refreshments were served by the hostess assisted by Mrs. E. S. Orcutt and others, following the customary activities of the circle meeting.

Mr. Henry Colby of Cincinnati, a graduate of Denison University, is a guest for a day or two of his Sigma Chi brothers.

Nu chapter of Phi Mu Alpha, the national musical fraternity, represented at Denison, last night initiated three men with pleasing ceremonies—Messrs. Fowler, Vincent Harper of Dover, Herbert R. Elwood of Toledo, and John Walker Hundley of Granville.

VACATION SCHOOLS.

There should be vacation schools in every town and city in our country. This does not mean that every child in America should be in a school during the summer. But every child of school age who has no employment, or who is not able to travel or spend his time in learning, should be engaged in some nature as presented in the fields or in the woods or on the shores of a river or a lake, would be helped by spending from two to four hours every week-day in a vacation school.

Parents who need help in providing for their children during the summer should take the initiative in organizing and maintaining these schools. The day will come when boards of education in every town and city will maintain vacation schools out of public educational funds, but until that time arrives individuals ought to establish these schools and support them by private subscription.

Every good vacation school places emphasis primarily on outdoor studies and manual activities. These schools are adapted to the nature and interests of the young. The regular school does not ordinarily make as strong an appeal to children as does the vacation school, because in the former they have to master subjects which require considerable drudgery—reading, writing, spelling and numbers—while in the vacation schools they have nature study, trips into the country, manual training, story-telling, and the like. Most children who have this kind of employment in the summer will be happier than if they are left without anything to do regularly. Also their health and morals will be improved. Moreover, they will be in better mental condition to undertake the work of the regular school in the fall.—M. V. O'Shea in the June Mother's Magazine.

You Can't Brush Or Wash Out Dandruff

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

Do this tonight, and by morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.

is used by
Domestic Scientists

Students of Domestic Science go deeply into the investigation of different food products. Their analysis is careful and sure. They consider food values, purity, healthfulness and cost. The use of Crisco by the Domestic Science Institutions and departments of schools proves its importance in cooking.

The study of Crisco will prove interesting to you, and its use helpful in enabling you to provide your family with more delicious and digestible foods.

To know Crisco, is to appreciate its quality and the many remarkable things it will accomplish. After you have learned what Crisco will do for the simplest dishes, you will find new ways of using this delightful product. You will gain a great respect for the scientific Crisco Process, which is responsible for this new food fat. Your grocer can supply you today.

Mrs. Shrewd Shopper's Confessions.

No. 5.

It is really painful to see the large number of women one meets on the street who are wearing hats that are entirely unbecoming to them. The hats are in the height of style, no doubt, and would look perfectly stunning on women of different types, but on the wearers they are positive "frights."

The style, shape and color of a hat must harmonize with the complexion, height and build of the wearer; otherwise the result is disappointing, no matter how fashionable the hat may be.

The short woman should avoid a hat that accentuates her shortness by its shape.

The tall woman should sidestep the hat that would make her look excessively tall.

And here are a few pointers that should be memorized by every reader of these talks. It may save you the unpleasant experience of buying a hat that is highly unbecoming to you.

These facts were compiled by Chavreul, the greatest organic chemist of France in the nineteenth century, who made a special study of color schemes for women's hats in connection with their complexions. To quote the words of his book:

"THE BLACK HAT WITH WHITE, PINK OR RED FEATHERS OR FLOWERS SUITS FAIR WOMEN ADMIRABLY."

"Although it can be worn by brunettes, the effect is not so good. For these orange or yellow trimmings are best."

"THE WHITE HAT ONLY GOES WITH THE WHITE OR PINK COMPLEXION, WHILE THE DARK WOMAN WHO VENTURES TO WEAR A BLUE HAT MUST ABSOLUTELY TRIM IT IN ORANGE OR YELLOW."

"If a pink hat be worn it should be separated from the skin by the hair or by white or, even better, by green trimmings. A brown skin does not go well with a violet hat unless separated not only by the hair, but also by yellow trimmings."

Making the Most of Yourself.

Every woman should make the most of herself. If your features are not fashioned as you would have them, be careful of your expressions as depicted by your face and arrange your hair to bring out your best points.

Take your hand mirror and look carefully at your eyes. Observe their expression and their clearness. If they are not clear your digestion needs attention. Observe your brows and lashes. If they are not as full and silky as they should be, begin at once to cultivate them.

If your mouth is not pretty, your expression is probably at fault. Perhaps you indulge in pouting. That causes small wrinkles about the lips and these wrinkles add years to your appearance. Biting the lips will make them thick and rough. Your mouth should express a restful frame of mind to be pretty.

Study your nose in profile as well as full face. There is no other feature so responsive to treatment. If the nose is too thick, you can massage it into slenderness. If too thin, it can be filled out by massage also, and if too tilted it can be straightened.

Your hair should frame your face, and there is one best way to arrange it. What that way is, you, yourself must find out. You and you only can make yourself beautiful. Go to the mirror each day and study your face. Watch for wrinkles and blemishes and at the first sign of either, remedy the trouble. Find out where improvement is needed in your face and persist in treatment when you have once started.

Your expression, of course, cannot

be good if your mood is not good. As soon as it is universally understood that anger, sulkeness, jealousy and despondency have their effect on facial beauty, there will be more beautiful and sweet tempered girls.

Our Boys and Girls

In most cities mothers, whether poor or rich, have the benefit of careful inspected milk and drinking water in the country it is a wise precaution to look into these matters before selecting the summer home. Flies and mosquitoes are two great enemies of the baby, affecting not merely his comfort, but endangering his health and perhaps his life.

In going to the country the mother should select, if possible, a place where the doors, windows and porches are screened. The prudent mother will include a bottle of cotton netting in the outfit she takes to the country in order that baby's crib, at least may be protected from insects. In going to a new place with the baby all the drinking water, the milk also, should be boiled, from a strange supply about which the mother knows nothing.

Everyday Etiquette

"Please tell me whether a card should use the prefix 'Mr.' on cards, also whether his card should be larger or smaller than a lady's was the query of Robert."

"Yes, the prefix 'Mr.' should be used on a man's card and it should be smaller than the card of a woman," said his sister.

Wall Street.
(ASSOCIATED PRESS TELEGRAM)
New York, May 10.—Quotations at
the opening of today's market indicated
further uncertainty regarding
impending developments, particularly
in the Mexican situation. Trading
showed the usual mixture of advances
and recessions, the most substantial
changes being made in the
Mexican situation, which was again
narrow limits. Willys-Owens and
Woolworth were the strongest features,
gaining four and two points, respectively,
with a more moderate rise for Mex-
ican Petroleum, which was soon lost
and as speedily regained. Declines
varying from fractions to 2 points oc-
curred in munitions and allied issues.
Rails were firm in the main.

The forenoon was marked by a series
of "mixed" movements, suggesting
further speculative caution. War
shares recovered from their early
heaviness but proved unacceptable as
leaders. Rock Island was again ac-
tive but shaded on profit taking. United
States Steel was firm, probably in ex-
pectation of a favorable April sugar
statement, and American sugar fea-
tured stocks of its special class, being
in unusual demand at an advance of 3
points. Detroit United Motors was
prominent among utilities, rising 7
points on light trading. Bonds were
irregular, Rock Island yesterday's
however, supplementing yesterday's
advance.

Extreme dullness prevailed in the
later dealings, rails and a few special
stocks making material recoveries from
lowest quotations. The closing was
irregular.

Chicago Grain.
(ASSOCIATED PRESS TELEGRAM)
Chicago, May 10.—Dry weather
reporting to the northwest has caused
wheat crop to deteriorate led to de-
clined higher prices today in the
market here.

Opening prices which ranged from
10c to 10 1/2c higher, with May at
11 1/2c and July at 11 1/2c to 11 1/2c, were
followed by a substantial further ad-
vance.

Corn shared in the wheat strength.
Offerings were notably scarce. After
opening at 10 1/2c, it advanced to 10 3/4c
and secured moderate general up-
lift.

Destruction by green bugs in Okla-
homa and Texas has caused a price of
10c. Forecasts of heavy summer
rain in the west weakened pro-
pensity for an early advance which took
place in the market seemed to be
the main effect.

WILSON INDORSED.
(ASSOCIATED PRESS TELEGRAM)

New Haven, Conn., May 10.—The
Democratic state convention today
adopted resolutions endorsing the
administration of President Wood-
row Wilson and instructing the Con-
necticut delegates to the national
convention at St. Louis to vote for
his re-nomination and also that of
Thomas R. Marshall for vice-presi-
dent.

CIVIL WAR FIGURES.

In the course of the civil
war, in-round numbers, 2,000-
600 men enlisted on the
Union side and about 1,000-
000 on the Confederate. The
total number of deaths in the
northern armies was 360,282;
110,000 men were killed or
right or mortally wounded
in battle. Of those killed out-
right on the field of strife the
total was 87,058. It is not
known how many Confed-
erates gave up their lives, but
it is believed to range be-
tween 250,000 and 300,000
from all causes, of whom 95-
000 lost their lives as a direct
result of battle. The cost of
the war to the United States
government, not including
pensions, was \$3,250,000,000,
the Confederate government
spending perhaps \$1,500,000,
000—less than half. The to-
tal number of soldiers surren-
dered by the different Con-
federate commanders in the
closing campaign was 175-
000. In addition, the north
had taken 90,000 other pris-
oners in the course of the pre-
vious year, of whom one-
third were exchanged and
two-thirds released.

FRENCH BALLOONS
LAND IN GERMANY

(ASSOCIATED PRESS TELEGRAM)
Berlin, May 9, Via London, May
10, 9 a. m.—Two of the French
balloons which broke from their
moorings in the French lines on Sat-
urday landed near Hanover. One of
the balloons was manned by a crew
of three soldiers, apparently officers,
who have not been captured.

The French official report on
Sunday said that about twenty cap-
tive balloons had broken from their
moorings during a squall and that
some of them had been carried to
the German lines.

BROADWAY MUST

KEEP ON MOVE.

(ASSOCIATED PRESS TELEGRAM)
New York, May 10.—Broadway
for many years the city's mecca for
actors, is in future to be kept clear
of idle members of the profession
unless they keep moving, according
to police court magistrate's deci-
sions today. Of six actors arraigned
for loitering, two were fined \$1
each, two were paroled for further
hearing and two were permitted to
depart upon announcing that out of
town positions awaited them.

"Broadway must not be used as
a standing place by actors to impede
pedestrians," ruled Magistrate Ten-
erke.

A Strange Rock Dweller.

One of the strangest creatures known
to science is the pholos, or boring
clam. When still very minute the ani-
mal bores into the sandstone ledges at
extreme low water, by means of its
sharp shell, which is replaced by se-
cretions as it is worn away. It pen-
etrates the rock to a depth of six or
eight inches and hollows out its bur-
rows as it increases in size. Shaped
roughly like a top, it could not leave
its rock dwelling even if it wished to
do so. For food it depends on the ani-
malcules that float in sea water, which
it seizes by its long siphon, or tongue.

The pholos is in great demand at the
seaside resorts along the Pacific coast,
for its meat is very tender and makes
excellent soup. The clams are dis-
lodged in great numbers from the
ledges by the use of dynamite, al-
though it is possible to obtain them
with a pick or crowbar.—Exchange.

quently remains idle for as long as
twenty minutes."—Birmingham Age-

MEMORIAL DAY

SO still they sleep,
Beneath the verdure deep,
On hill, on vale, by brook and lonely
farm!

A scattered army they
Until the day
The bugles of the angels sound alarm
And they awake for the last reveille.

By ford and sea,
On grassy meadows, abounds
A host of fluttering flags that mark
The soldier's grave.

How brave their colors bright
But who can tell
How each stern hero fell?

On sea, on land,
We understand they died,
But of their dying agony
We may not know or see
In what heroic way they breathed their
last.

How sped their choking breath
When Death
Folded his arms about.

Their dying eyes gazed on the foe,
And, lo,
They slept,
Unknowing that the day was won or lost.
Amid the fray they fell,
And Israel
Wept at the sight
And gave them night and rest.

They dwell in silent camps.
The damps
And dew weep o'er their mound.

With us they live
And give
Joy at their victory.
We grieve, but honor;
Weep, but praise,
And raise
A shaft in memory eternal
For a nation's sons
Who by their guns
Fought and in fighting died.

They died to save,
And but their grave
Is left to us, the living.
We who bow
And place a chaplet on each brow.

Marietta, O., May 10.—W. F.
Baird, a Pittsburgh coal operator,
who formerly was president of the
Interstate Young Men's Christian
Association, including West Virginia,
Maryland, New Jersey and the Dis-
trict of Columbia, was found dead
in a hotel room here today. Police
believe he fell in a fainting spell and
was choked to death by a tight col-
lar which he wore. He was about
50 years of age.

So He Didn't Waste It.

A little boy went to Sunday school
for the first time. His mother gave
him a nickel to put in the collection
box. When he returned, he had a
sack of candy.

"Where did you get the candy?"
asked his mother.

"From the stand around the cor-
ner."

"But what did you buy it with?"
asked his mother.

"With the nickel you gave me."

"Well," replied the boy, "I didn't
need it. The minister met me at the
door and got me in free."—The

SUCCESS OF A NEW REMEDY FOR RHEUMATISM, GOUT, GRAVEL, LUMBAGO, NEURALGIA

Dear Mr. Editor:—I suffered for years with rheumatism. Last March I tried "Anuric" and have used this new kidney medicine recently discovered by Dr. Pierce, and it was wonderful the way it eased the pain and gave me relief in such a short time. I have tried several medicines, but "Anuric" is the only one that gave satisfaction. I feel it my duty to recommend "Anuric Tablets" to any one who suffers as I did.

(Signed) Mrs. MARGARET E. SNIDER, Box 115, Potsdam, Ohio.

NOTE: Folks in town and adjoining counties are delighted with the results they have obtained by using "ANURIC," the newest discovery of Dr. Pierce, who is head of the INVALID, RHEUMATISM, GOUT, GRAVEL, LUMBAGO, NEURALGIA, SCIATICA, BRUISES, BURNS, SCALDS, SORES, ETC., MEDICAL INSTITUTE, Buffalo, N. Y. Those who started the day with a backache, stiff legs, arms and muscles, and an aching head (worn out before the day began because they were in and out of bed half a dozen times at night) are appreciating the perfect rest, comfort and new strength they obtained from Dr. Pierce's Anuric Tablets. To prove that this is a certain uric acid solvent and conquers headache, kidney and bladder diseases and rheumatism. If you've never used the "Anuric," cut this out and send ten cents to Doctor Pierce for a large sample package. This will prove to you that "Anuric" is thirty-seven times more active than lithia in eliminating uric acid—and the most perfect kidney and bladder corrector. If you are a sufferer, go to your best druggist and ask for a 50-cent box of "Anuric." You run no risk for Dr. Pierce's good name stands behind this wonderful new discovery as it has for the past half century for his "Golden Medical Discovery" which makes the blood pure, his "Favorite Prescription" for weak women and "Pleasant Pellets" for liver ills.

BRUSH TEETH CORRECTLY

The right way to brush the teeth is to hold the bristles upright. In this way the crevices, as well as the surfaces are thoroughly cleansed, provided a few drops of hyclorite in a glass of water are used.

Particles of food which invite germs and microbes get into the tiny crevices. Hyclorite reaches every crevice, kills the germs and makes the mouth and breath sweet and clean.

You surely must use hyclorite and avoid decay of teeth. Rinse and gargle with this very satisfying and effective mouth wash and you will escape throat troubles and other germ diseases.

Dentists are urging the use of hyclorite because it is such a pure, safe and remarkably effective antiseptic. It cools and soothes, cleanses and heals and is very economical. Hyclorite can be obtained from any druggist.

TAKE SALTS TO FLUSH KIDNEYS

Eat Less Meat If You Feel Backache or Bladder Troubles—Salts

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; moving all the acids, waste and poison else you feel a dull misery in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush out the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will act fine and bladder disorders disappear. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive; harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.

SAGE TEA DANDY TO DARKEN HAIR

Look years younger! Use the old-time Sage Tea and Sulphur and nobody will know.

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a 50-cent bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old, famous Sage Tea Recipe, improved by the addition of other ingredients, are sold annually, says a well-known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray, or becoming faded have a surprise awaiting them, because after one of two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful.

This is the age of youth. Gray-haired unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur tonight and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.

This preparation is a toilet requisite and is not intended for the cure, mitigation or prevention of disease.

RINGLING BROTHERS' BIG TIGER WINS IN CONTEST OF BEAUTY

When the Ringling Brothers' circus was playing at the Coliseum in Chicago this spring, a vote was taken to decide which was the most particular animal in the menagerie. Many school children took part in the contest. Some favored the giant elephant, Big Bingo; others voted for Jill, the smallest member of the giraffe family and nearly all the

thousand wild animals, with the exception of the hyenas, received a scattering vote. But when the polls were closed and the last ballot counted, it was found that Jerry, the monster tiger of this traveling jungleland had won, paws down.

For though Jerry is as masculine as his name implies, he spends no less than three hours each day looking after his toilet. And when he has finished, his great, beautiful coat is glossier than that of any of his neighbors, the seals, and almost as attractive to the eye as the tropical birds that occupy the aviaries opposite the big fellow's cage. Alhambra, Tonight and Tomorrow. Potent as is the scenic element in "Then I'll Come Back to You," the star, Alice Brady, is equally wonderful. Those who have seen her in "As Ye Sow," "The Boss," "The Ballet Girl" and her other photoplay masterpieces, will appreciate in her work in this picture her supreme effort at emotional acting, for she has many occasions to display her ability, and needless to say, she lives up to her established reputation of being most charming when portraying a role which forces her to call upon her great resources to fulfill.

The Mazda. The last word in sensationalism, the greatest photoplay of the year is "The Grip of Jealousy" featuring the now queen of the screen, Louise Lovely at the Mazda. Thursday. "The Grip of Jealousy" is a brilliant Blue Bird production and is a sensational drama of life down south before the civil war. The play is filled with thrilling episodes among which is the escape from bloodhounds in a driving rain; the kidnapping and thrilling rescue of the slave girl. Virtue and villainy clash in an even encounter and love and hate battle for the prize.

The Gem.

The Red Feather Photo Play company presents Miss Gloria Fonda in "Drugged Waters" at the Gem theatre tomorrow afternoon and evening. Miss Fonda was the contest winner in the state of Washington. "Drugged Waters" was written by Leonora Ainsworth and is very interesting. Most of the action takes place at High Bluff Mineral Springs which is a beautiful resort in the heart of the mountains.

forms his pains-taking toilet entirely with his big, broad tongue. The smooth, or under side is used as a wet brush. The rough or upper surface serves as a comb. The tongue is also indispensable for the minor toilet of his face and for which human beings, according to sex, use moustache-combs, razors, powder-puffs, rabbits' feet, brushes and cosmetics. The distance to which the tiger's tongue can be protruded for the purpose of washing every part of his broad face is quite surprising. In spite of a gradual inclination on the part of men to go clean shaven, the tiger family has always remained true to whiskers. The animal's tongue can be extended to the furthestmost of these strong, bristly hairs

LICKING COUNTY STUDENT WINNER OF SCHOLARSHIP

Announcement was made on Tuesday of the 30 contestants in the state essay writing contest, who were fortunate to secure scholarships in the College of Agriculture at Ohio State University. Licking county was represented among the prize winners, William A. Irvin, a senior in the Brownsville high school, having a grade of 98.

The announcement was made by State Superintendent of Public Instruction Pearson of 20 high school students who won four-year courses in the College of Agriculture. There were 598 contestants and the essays were graded by a committee of university professors selected by Mr. Pearson. Three of the winners made 100 per cent and the same number made 97 per cent, the lowest grade made by the winners. The state was divided into districts and in the southwest district the winners were: Earl Spencer, Frazeeburg, 99; Lawrence Hardin, Delaware, 98; Clarence Rowles, Pleasantville, 98; William A. Irvin, Gratiot, 98; Max Hall, Wilkesville, 97.

Neuritis is a disease of the nerves.

There is a lack of nerve energy—the delicate nerve sheaths are damaged.

Ion-o-lex penetrates the tissues—re-insulates the nerve sheaths and stops the lack.

It is all mechanical—Ion-o-lex is not a drug—contains no narcotics, opiates or counter-irritants.

It simply stops the lack.

Ion-o-lex is a truly remarkable scientific discovery—used by the most prominent physicians in England and by the English Government in military hospitals.

Guaranteed to stop local inflammation wherever it occurs.

Ion-o-lex Liquid for internal use and Ion-o-lex Unguent for external use.

SISTER DREAMS OF DROWNING; THREE ARE DEAD

Chillicothe, May 10.—Orville, Charles and Harley Dearth, aged six, eight and ten, respectively, were drowned in Paint creek, near here, yesterday afternoon, when a rowboat in which they were riding upset in swift water near a dam. The boys, who were accompanied by Ralph Miller, aged 14, were trying to cross the stream, when they lost one of their oars. The current carried the light skiff toward a dam, where it turned over. Young Miller was rescued by a fisherman.

When Sheriff Swepston asked the mother, Mrs. Henry Dearth, if her children were missing, she screamed that they had been drowned, saying her daughter had dreamed the night before that they would die in that way.

2,000 Ore Shovelers Go Out On a Strike

(Associated Press Telegram)
Flat River, Mo., May 10.—A strike of approximately 2,000 underground ore shovelers employed by the Federal and Doe Run Lead companies threatens to paralyze the lead mining industry of St. Francis county, it was stated here today.

The shovelers who are mostly foreigners, are demanding a wage scale of \$3.50 a day with a guarantee that the number of cars to be filled dur-

GIRL STRIKERS WERE ARRESTED IN CLEVELAND

(Associated Press Telegram)
Cleveland, May 10.—Seven girl strikers, doing picket duty in front of the J. C. Newman Cigar Company plant, where a strike has been in progress since Monday, when 100 cigarmakers went out, were arrested this morning after they defied a police order to move on. Police claim that in attempting to dissuade others from going to work this morning the girls became boisterous and were ordered to move on but refused. A policeman attempted to force the girls to move away and the crowd became menacing. When reinforcements arrived seven of the girls were taken to the station, warned to respect the police and golden rule.

RAISE FOR SILK MAKERS.

SOCIAL WORKERS HOLD A MEETING AT INDIANAPOLIS

Indianapolis, Ind., May 10.—Indianapolis was filled today with social workers from all parts of the United States, Canada and Cuba who are here for the forty-third annual meeting of the National Conference of Charities and Corrections, which will open with a general session tonight. Father Francis H. Gavik, of this city, who is president of the conference, will preside and will deliver the president's address.

The delegates will be welcomed on behalf of the state by Dr. William Lowe Bryan, president of Indiana university and by Mayor Joseph E. Bell, of this city. Jeffrey R. Brackett, of Boston, will respond on behalf of the conference.

In addition to the opening exercises, Ernest P. Bicknell, director of the civilian relief of the American Red Cross, will discuss "War Relief."

The conference will remain in session a week and during that time there will be more than 50 meetings and about 200 addresses, in addition to numerous round table discussions.

HAMILTON COUNTY REPUBLICANS MEET.

Cincinnati, May 10.—That candidates for county offices and for the senate and house of representatives of the general assembly would be discussed but that no endorsements would be made was the belief of politicians when the Hamilton County Republican committee began a meeting here today.

Among the callers on Chairman R. K. Hynicka this week was Congressman Nicholas Longworth. Mr. Longworth has been mentioned in connection with the nomination for United States senator but it was said the subject was not referred to by either Mr. Hynicka or Mr. Longworth.

AGREEMENT ON ARMY BILL IS NEAR AT HAND

(Associated Press Telegram)
Washington, May 10.—Work on the army reorganization bill was resumed today by the conference committee of the house and senate with indications of an agreement being near at hand. It was expected that virtually a new bill the result of a compromise, would be ready to be laid before President Wilson next week.

Prospects are that the senate conferees will have to give up the volunteer army provision for a reserve of 261,000 men, in view of its repudiation by the house. Senate conferees hope, however, to strengthen the house provision authorizing citizen instruction camps which would afford the nucleus of a volunteer army.

It was expected that a regular army with a peace footing of approximately 175,000 men with the senate expansive organization system for 220,000 men in time of need would be agreed to. The house provision for reorganization and federalization of the national guard which would provide for a defense reserve of about 400,000 men, also probably will be approved. It was regarded as likely that the house amendment for a nitrate plant to cost \$20,000,000 would be accepted.

Little delay is looked for in reaching an agreement on the minor features of the bill.

RESISTANCE TO DISEASE

Debility is a loss of vitality, not affecting any one part of the body particularly but the system generally. It is dangerous because it reduces the body's resistance to disease.

When debility follows acute diseases, convalescence is slow and the strength does not return as it should. An attack of the grip often results in debility that persists for months. Everybody recognizes that the remedy for debility is to build up the blood because the blood goes to every part of the body and an improvement in its condition is quickly felt throughout the system. The problem in every case is to find something that will enrich the blood.

Dr. Williams' Pink Pills suit most people's need because they are non-alcoholic and they really build up the blood and strengthen the nerves. Dr. Williams' Pink Pills are useful for growing children and for men and women whose nervous energy has been overdrawn. Try them whenever your blood is thin.

Your druggist sells Dr. Williams' Pink Pills or they will be sent by mail, postpaid, on receipt of price, 50 cents per box, six boxes \$2.50 by the Dr. Williams Medicine Co., Schenectady, N. Y. Write today for free booklet on the blood and nerves.

Health for Sick Women

For Forty Years Lydia E. Pinkham's Vegetable Compound Has Been Woman's Most Reliable Medicine—Here is More Proof.

To women who are suffering from some form of woman's special ills, and have a constant fear of breaking down, the three following letters ought to bring hope:—

North Crandon, Wis.—"When I was 16 years old I got married and at 18 years I gave birth to twins and it left me with very poor health. I could not walk across the floor without having to sit down to rest and it was hard for me to keep about and do my work. I went to a doctor and he told me I had a displacement and ulcers, and would have to have an operation. This frightened me so much that I did not know what to do. Having heard of Lydia E. Pinkham's Vegetable Compound I thought I would give it a trial and it made me as well as ever. I cannot say enough in favor of the Pinkham remedies."—Mrs. Mary Ann Asbach, North Crandon, Wis.

Testimony from Oklahoma.

Lawton, Okla.—"When I began to take Lydia E. Pinkham's Vegetable Compound I seemed to be good for nothing. I tired easily and had headaches much of the time and was irregular. I took it again before my little child was born and it did me a wonderful amount of good at that time. I never fail to recommend Lydia E. Pinkham's Vegetable Compound to ailing women because it has done so much for me."—Mrs. A. L. McCasland, 509 Have St., Lawton, Okla.

From a Grateful Massachusetts Woman.

Roxbury, Mass.—"I was suffering from inflammation and was examined by a physician who found that my trouble was caused by a displacement. My symptoms were bearing down pains, backache, and sluggish liver. I tried several kinds of medicine; then I was asked to try Lydia E. Pinkham's Vegetable Compound. It has cured me and I am pleased to be in my usual good health by using it and highly recommend it."—Mrs. B. M. Oscood, 1 Haynes Park, Roxbury, Mass.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

The Factory Behind The Food

More than forty different kinds of corn flakes were prepared experimentally before New Post Toasties were finally developed to perfection. As a distinguishing feature, note the tiny bubbles on each flake—raised by the quick, intense heat of a new, patented process of manufacture.

New Post Toasties are the first corn flakes with a self-developed flavour—the full, true flavour of choice white Indian Corn—unlike common "corn flakes" that depend largely on cream and sugar for their palatability.

Try a handful dry—this simple test will demonstrate the delicious new flavour. But the flakes are usually served with cream or rich milk.

New Post Toasties do not "chaff" or crumble in the package, and they "stand up" when cream or milk is added. They're untouched by human hands and put up in moisture-proof packages to preserve their oven freshness until served.

Prince Albert has always been sold without premiums or coupons. Quality is its standard—and my, how the millions of smokers have approved of it, too!

A supply of Prince Albert smokes you wherever tobacco is sold. Toppies red bags, 8c; tiddies red, 10c; handsome pound and half-pound tin humidor and that nifty crystal glass humidor with smoke-moistener top that keeps the tobacco in each prime shape—always!

PRINCE ALBERT

the national joy smoke

stands clear-as-a-whistle above national or state restrictions on the use of premiums or coupons because they have never been given with Prince Albert. To offer such inducements would mean that Prince Albert's quality would have to be reduced to meet their cost! We prefer to hand smokers quality.

One test of Prince Albert will prove this to your absolute satisfaction! It will prove that P. A. cannot bite, cannot parch! Your enjoyment of its fine flavor and coolness will be supreme! The patented process by which Prince Albert is made cuts out bite and parch!

Prince Albert came unheralded a few years ago; today it has made three men smoke pipes where one was smoked before and has given cigarette rollers a new idea of makin's joy. To meet the approval of such an army of men of varied tastes, P. A. must have everything we or its most enthusiastic admirers ever claimed for it.

And Prince Albert has all that! It rings true and real and you just adopt it for all time quick as you get that taste and aroma into your smokeappetite! Because, it answers the fondest tobacco desires you or any man ever did express!

LADDIE LINKE AND T. JAMES HERE SUNDAY

When the Bope-Hayes team comes to Newark next Sunday for a game with the Fitzsimmons team of the Capital City League, Newark fans will have an opportunity to see two former Columbus stars in action. Laddie Linke and T. James, former Columbus Association catchers, will be in the line-up for the visitors.

COLUMBUS CLUB CLOSES DEAL FOR JOHN MCCARTHY

The Columbus club of the American Association has just closed the deal with the Terrie House club of the Central League whereby the Columbus club purchases the release of Johnny McCarthy, utility man who has been with the Senators since the opening of the training season. The deal has been pending since last winter when Columbus made the purchase condition that the Newark boy be good. Although he has not been a regular in the lineup since the season opened, the action of the club owners indicates that McCarthy's services are regarded as valuable to the club and his friends here will be glad to learn that he is to be retained. It is hoped now that Mack will soon be in with the club on the present trip through the western end of the circuit.

CHICAGO U TO HOLD MEET FOR HIGH SCHOOLS

The University of Chicago Fifteenth Annual Inter-school Meet will be held June 10 on Stag Field, Chicago. This meet is held under the supervision of A. J. Stagg and is the only national meet held for prep athletes. Last year there were representatives from all sections of the country. Five of them will be awarded in every event, a bonus will go to the team scoring the greatest number of points, and there will be two separate races in the mile and half-mile, and three in the quarter mile. Entry blanks will be mailed to all high schools and colleges in the West and Middle West during the second week of May. Last June 532 athletes competed in the track events and tennis tournament.

Young Ahearn Best In Bout With Al McCoy

New York, May 10.—Young Ahearn of this city tonight Al McCoy of Brooklyn, claimant of middleweight championship, in a four-round contest here last night. Ahearn weighed 160 pounds and McCoy 161 1/2 pounds.

SECURES DIVORCE; HE CAN RACE NOW

Charlie Merz, Indianapolis race driver, has secured a divorce and come back into the hazardous racing sport. He will drive a Peugeot car at Indianapolis, May 30, in the sixth annual international sweepstakes race. The car is owned by the International Speedway Team Company, and the owners have a rule that married men cannot drive.

BOWSER WILL WRESTLE TRIO IN CARNIVAL

When Paul Bowser comes to Newark next week with the Great Empire Shows and carnival given under the auspices of the Moose lodge, he will introduce a new plan of carnival wrestling. He will announce beforehand the names of the wrestlers he will meet and according to his promises, which have heretofore been fulfilled, each opponent will be a man of worth. It is usual for the carnival wrestler to offer to meet all comers, offering \$10 to the wrestler who stays 10 minutes. Bowser's reputation is too firmly established here to hope for any opponents so he is arranging three matches for the week. Each wrestler will appear two nights in succession.

Bowser's show has been one of the best attractions of the Empire contingent and his Newark friends will be glad to welcome him back to the city, since he has given such splendid entertainment here the past season.

SUMMER FURNITURE

Time was, not so many years ago, when summer furni-
ture meant splint chairs—or most any kind of chairs—
which were neither comfortable nor good looking, but
which did for porch and outdoor use. But today sum-
mer furniture at Stewart Bros. Alward Co. means the
acme of perfection in the furniture maker's art—furni-
ture that will prove an added attraction to your home,
not only during the summer months, but during all the
months of all the years. Note particularly the black
and white suite as pictured, then see it displayed in
our Church Street window.

Investigates Check Deal.
A check for \$15 made payable to
Minnie Lake and signed by N. E.
Green, which was returned to a
local store with the notation "no
funds" in dorsed upon it, has been
turned over to the police. The body
of the check and the signature is
not the same. Mrs. Luke admits
having written the check but told
the police that Green signed it and
that she understood that he had
funds in the bank at Croton.
No Estimate Received.
Society Director Bigbee has not
received any estimate from the Se-
grave Mfg. Co., at Columbus, where
the damaged fire truck was forward-
ed after the accident Monday night.
Word from the factory was expect-
ed late today or tomorrow. Fire-
men and horses who were injured in
the wreck, all are recovering.
Auto Owners Invited.
All auto owners in the city are in-
vited to attend a big booster meet-
ing at the assembly room in the
courthouse this evening at 7:30
o'clock at which time arrangements
will be made for the trip to Zane-
sville. At least 500 autos should be
in line on the afternoon of May 15,
when the famous Buckeye band will
lead the big procession on a return
visit to our neighbors of the Clay
City.

Eightieth Anniversary.
L. H. Snoor, landscape gardener
employed as superintendent of the
courthouse park is celebrating his
eightieth natal anniversary today.
Mr. Snoor is very active for his age
and would easily be taken for a man
not over sixty years of age. He is
a native of Denmark and came to
this country in 1866, and is now a
patriotic American citizen.
To Abandon Park.
Secacum park near Bucyrus is to
be sold for farming purposes, and
the once popular resort may soon be
a cow pasture. Interest in the place
has waned and it has not proven a
paying investment. The Gallon-Bu-
cyrus Interurban railway has owned
the park for 16 years.
Ohio Oil Production.
Sixty-two oil wells were completed
in northwestern Ohio in April. Wood
county led with 26 and Hancock sec-
ond with nine. Seneca county com-
pleted seven.
Condition Improved.
Oren Kinney, son of Mr. and Mrs.
Earl Kinney, who was kicked in the
head by a horse, at his home near
Stadden's Bridge, is improving
slowly. Dr. H. H. Postle, assist-
ed by Dr. D. J. Price, is attending
him. The right eye was seriously
injured.
MINERS AND OPERATORS.
East Liverpool, May 10.—A con-
ference of coal operators and miners
of sub-district No. 4 of the United
Mine Workers of America, opened in
Salineville near here today to adjust
local differences. No wage question
is involved. Operators from Cleve-
land, Pittsburgh, New Philadelphia,
Salem and Salineville are present.

CARPENTERS' STRIKE.
(ASSOCIATED PRESS TELEGRAM)
East Liverpool, May 10.—The
strike of 75 local carpenters, in-
augurated May 4, was settled today
when the men accepted the contrac-
tors' proposition to pay the old scale
of \$4 per day until June 15, after
which for two years they are to re-
ceive \$4.50 per day. The strikers
return to work tomorrow.
RESIGNS FROM CABINET.
(ASSOCIATED PRESS TELEGRAM)
London, May 10, 5:53 p. m.—
The Marquis of Crewe announced in
the House of Lords today that Baron
Wimborne, Lord Lieutenant of Ire-
land had resigned.

"Heard From Massachusetts"

Deeds of Famous Sixth Regiment
Brought Joy to Lincoln.

IN his book of reminiscences en-
titled "Memories of a Hundred
Years" the late Edward Everett
Hale told the following story of
Lincoln and Sumner:
"Charles Sumner told me once that
when Lincoln was making up his first
lists of appointments he affected to be
a little annoyed by the pressure which
New England, and especially Massa-
chusetts, brought to bear.
"To tell the truth, we had some men
in Massachusetts of whom we need
not be ashamed, and one of them,
Charles Francis Adams, was appointed

FOUGHT THEIR WAY THROUGH BALTIMORE

to London and another, John Lothrop
Molloy, to Vienna, two of the principal
foreign appointments given to so small
a state. When the last of these prin-
cipal appointments was made Lincoln
said to Sumner, 'Now, Mr. Sumner, I
hope you will give me a little time be-
fore I hear from Massachusetts again.'
"This was only a few days, however,
before the 19th of April, 1861, when
Sumner and Lincoln were together at
the White House, and it was announ-
ced that the Sixth Massachusetts regi-
ment had fought its way through Bal-
timore and was at the moment placed
in garrison at the capitol. Sumner
said to Lincoln, with some satisfaction,
'Mr. President, you are glad to hear
from Massachusetts today.'

NEWARK LOST NEXT MEETING OF RED MEN

Akron, May 10.—Improved Order
of Red Men in closing session of
their state convention here, today
selected Piqua as the place of hold-
ing their 1917 meeting. The time
was set for the second Tuesday in
May. Columbus and Newark also
sought next year's convention.

MRS. HENDERSON OF ZANESVILLE GIVES VERDICT

Found Nerv-Worth Prompt-
ly Valuable In Banishing
Her Ills of the Flesh

Mrs. Henderson lives at 618 Ful-
ton street, Zanesville. Her signed
statement, which follows, tells a
convincing story.
"I was in a run-down condition.
Very nervous and constipated. Very
bad digestion.
"Nerv-Worth was recommended
to me by a friend and I decided to
try it.
"I bought a bottle of the Wells
drug store and after taking one bot-
tle my constipation is much better
since taking Nerv-Worth and my
nervousness is some better.
"I recommend Nerv-Worth to any-
one suffering with nervousness, in-
digestion or constipation as I was.

cape from serious injury at noon to-
day when his automobile collided
with a city street car on North
street. Only the promptness and
coolness of Motorman H. H. Huff-
man prevented what might have been
a serious accident.
The car had been standing on the
switch in North street and started
for Fourth when Mr. Swisher came
driving out of the alley adjoining
his residence. Motor Huffman saw
him in time to apply the emergency
brake and the compact when the col-
lision occurred was not what it
might have been had the street car
been making a faster run to take
the incline on North street leading
into Fourth.
The street car was stopped as
soon as the collision occurred and
fortunately Mr. Swisher was not in-
jured. One of the back wheels of
his machine was demolished and the
fender of same was bent. The
damage can be easily repaired.

AMERICAN REFUGEES TAKEN ABOARD SHIP.

(ASSOCIATED PRESS TELEGRAM)
Washington, May 10.—Admiral
Winslow, commanding on the West
Mexican coast, reported to the navy
department today that the steamer
San Juan had taken 68 American
refugees from Manzanillo and 23
from Mazatlan and was proceeding
with them to San Diego Calif. The
admiral made no reference in his
dispatch to new disturbances on the
coast but said there was a general
feeling among Americans to leave
Mexico.

TAILORS ON STRIKE.

(ASSOCIATED PRESS TELEGRAM)
Chicago, May 10.—One thousand
tailors employed by B. Kuppenheim-
er & Company were called out today
to join the six hundred cutters and
trimmers who struck yesterday.
Frank Rosenblum, secretary of
the Amalgamated Clothiers Union,
who is in charge of the strike, plans
to call out about 2,000 workers a
day. Strikers stationed pickets at
the plants which are under police
guard.

Stained with Cabot's Shingle Stains

Every Gallon Reliable

Reliable dealers and painters recommend them, although
they can make more profit on the cheap and inflammable
mixtures of kerosene and linseed. Every cent "saved"
in buying cheap stains is a dollar wasted in labor and
value.
"Four stains which have been used in this neighborhood
have always improved with age, growing deeper and
richer in tone, while the cheap stains have ruined the
appearance of several houses here, fading to a rusty
brown entirely or in spots."

Interviewing a Humorist

"GOOD morning, Wagge. What's on the carpet today?" asked Bingleton.
"Dust," said Wagge.
"Clever boy! But I mean what have you on foot?"
"Shoes," said Wagge solemnly.
"Oh, come off, Wagge! What are you up to these days?"
"Date," sighed Wagge.
"I'll give you just one more chance, you poor frivol, you. What are you doing now?"
"Everybody," said Wagge.
"As usual, eh?" said Bingleton as he shoved the remains down the nearest available coal hole.—New York Times.

JOHN TUCKER

WELL KNOWN CITIZEN PASSED AWAY LAST EVENING AFTER SHORT ILLNESS.

Came to Newark in 1860, and Was Head of One of City's Industries for Number of Years.

John Tucker died at his home in the Tucker block in East Main street Tuesday evening about eight o'clock, death being due to heart trouble from which he had been suffering for the past several months.

Mr. Tucker was born near Beverly, Washington county, O., and was the son of Alexander and Delilah (Hughes) Tucker. He was educated in the schools of Beverly and reared to manhood upon a farm. He learned the tinner's trade at Cambridge and came to Newark, embarking in business Jan. 1, 1869, as a dealer in stoves and tinware. Later he added the plumbing business.

In May 1892, he purchased the Sims Patent Eaves Trough and Patent Ornamental Roof Gutter, which he manufactured and shipped to all parts of the United States, doing a large jobbing business under the firm name of The Tucker Manufacturing business. He located at 71 East Main street where he built and occupied a two story brick structure.

Mr. Tucker united in marriage to Miss Ida I. Moore, daughter of the late Major D. A. B. Moore, who survives with three children, Oliver M. Tucker of Columbus, John Ralph Tucker of Haynes, New Mexico, Helen E. Tucker of the home in this city, and two brothers and one sister, Oliver and W. R. Tucker of Beverly, O., and Mrs. C. Townsend, of Zanesville, O.

Politically Mr. Tucker was a Democrat and represented his party as a delegate at a number of political conventions. He was a county commissioner for six years and also served as a member of the board of education. He was active in business up until the present and had just completed remodeling his East Main street property. He was a genial and companionable man and always ready to assist in any worthy cause and will be greatly missed by a large circle of friends and acquaintances.

Funeral services will be held at the home Friday afternoon at 2:30 o'clock and will be conducted by Rev. Calvin G. Hazlett, pastor of the First Presbyterian church, of which congregation Mr. Tucker was a member. Interment in Cedar Hill cemetery.

NEGRO STABBED AS HE RESISTED HIS ASSAILANT

Thomas Brown, colored, was arrested last night by Police Chief Sheridan in a railroad construction camp at Pataskala and brought to Newark, lodging him in the county jail. He will be charged with cutting with intent to wound and probably will face another and more serious charge of sodomy. His victim was John Jones, 21, another colored man, who was attacked in the pit of the old gas tank opposite the B. & O. station.

An examination by a physician revealed that Jones was suffering from a bad cut in the back besides other injuries received as a result of Brown's attack upon him.

Brown's clothing was covered with blood and he had in his possession a knife with which he is said to have attacked his victim. Jones told the police that Brown threatened to kill him if he made any outcry. Both men are members of the B. & O. construction gang employed at Pataskala.

DUTTON DAVIS IS HELD FOR THEFT JEWELRY RECOVERED

Patrolman Eddie Hurlbaugh this afternoon went to Zanesville to take into custody Dutton Davis under arrest there who will be arraigned on a charge of grand larceny. It is alleged he stole a quantity of jewelry from a room in the Commercial hotel here Monday.

Davis was arrested last night in Zanesville while he was sleeping in an ice house in that city. The Zanesville officers recovered five rings including one set with a diamond, which Davis is said to have traded for whiskey.

Davis was rooming at the Commercial house here and he went into the room of Miss Skiles, daughter of the proprietor, where seven rings, three gold neck chains and \$5.00 in money were stolen.
